

experienced independent farsighted

Would you like to combine farsightedness with foresight?

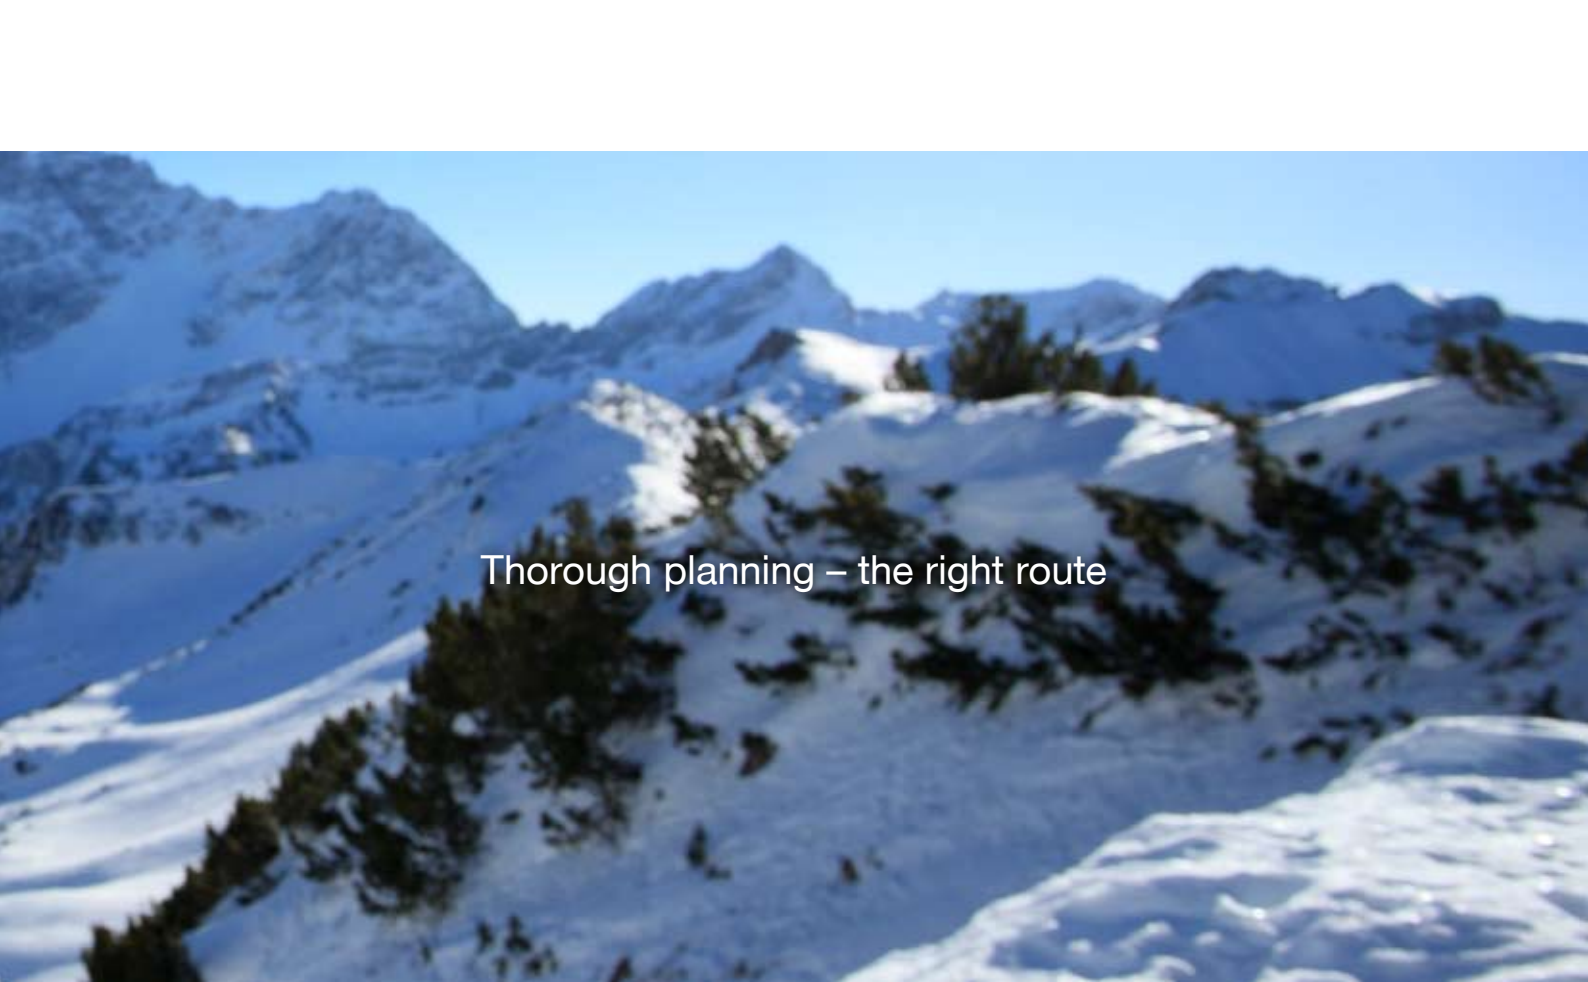

Foresight

You would like to see your assets in competent hands. We take your concerns seriously and offer reliable answers based on our years of experience in wealth management and investment advice. Independent since the company was founded

in 2000; we are totally free when it comes to developing your personal investment strategy. Farsighted decisions have to be taken before investments in globalised markets can be crowned by success. Decide on us so that we can decide for you.

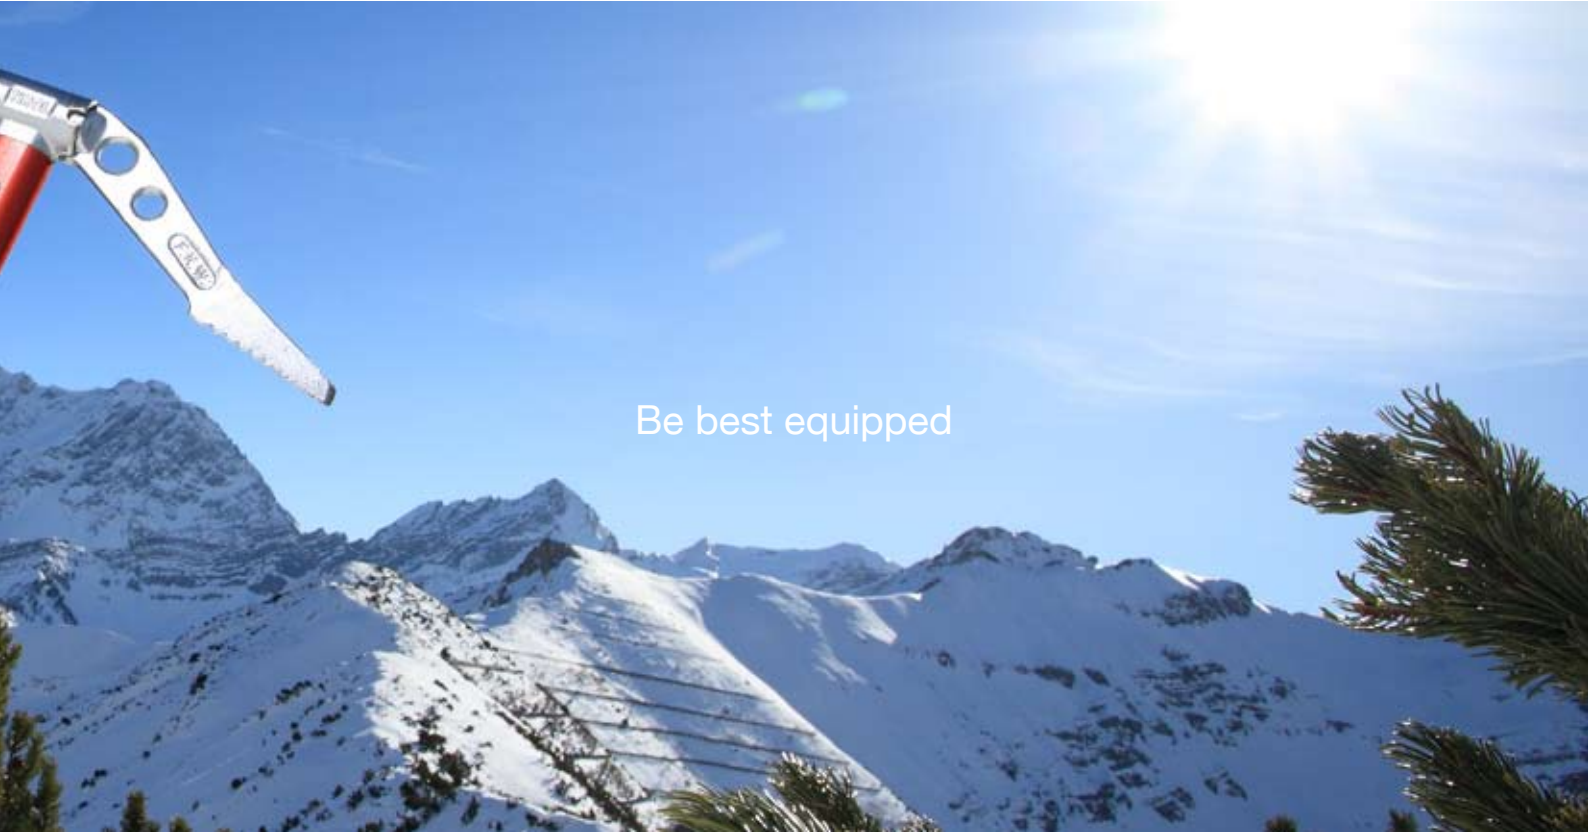

Thorough planning – the right route

Be demanding of us. After all, the quality of an investment strategy does not only depend on the profitability and safety of the portfolio – just as important is the degree to which it fits your personal situation and your needs. We will administer your assets responsibly and competently. We know that

they represent your life's work. Only those who are familiar with the whole spectrum of wealth management and financial advice will be able to tailor an investment strategy which fits your needs and to implement it professionally, enabling you to reach your goals.

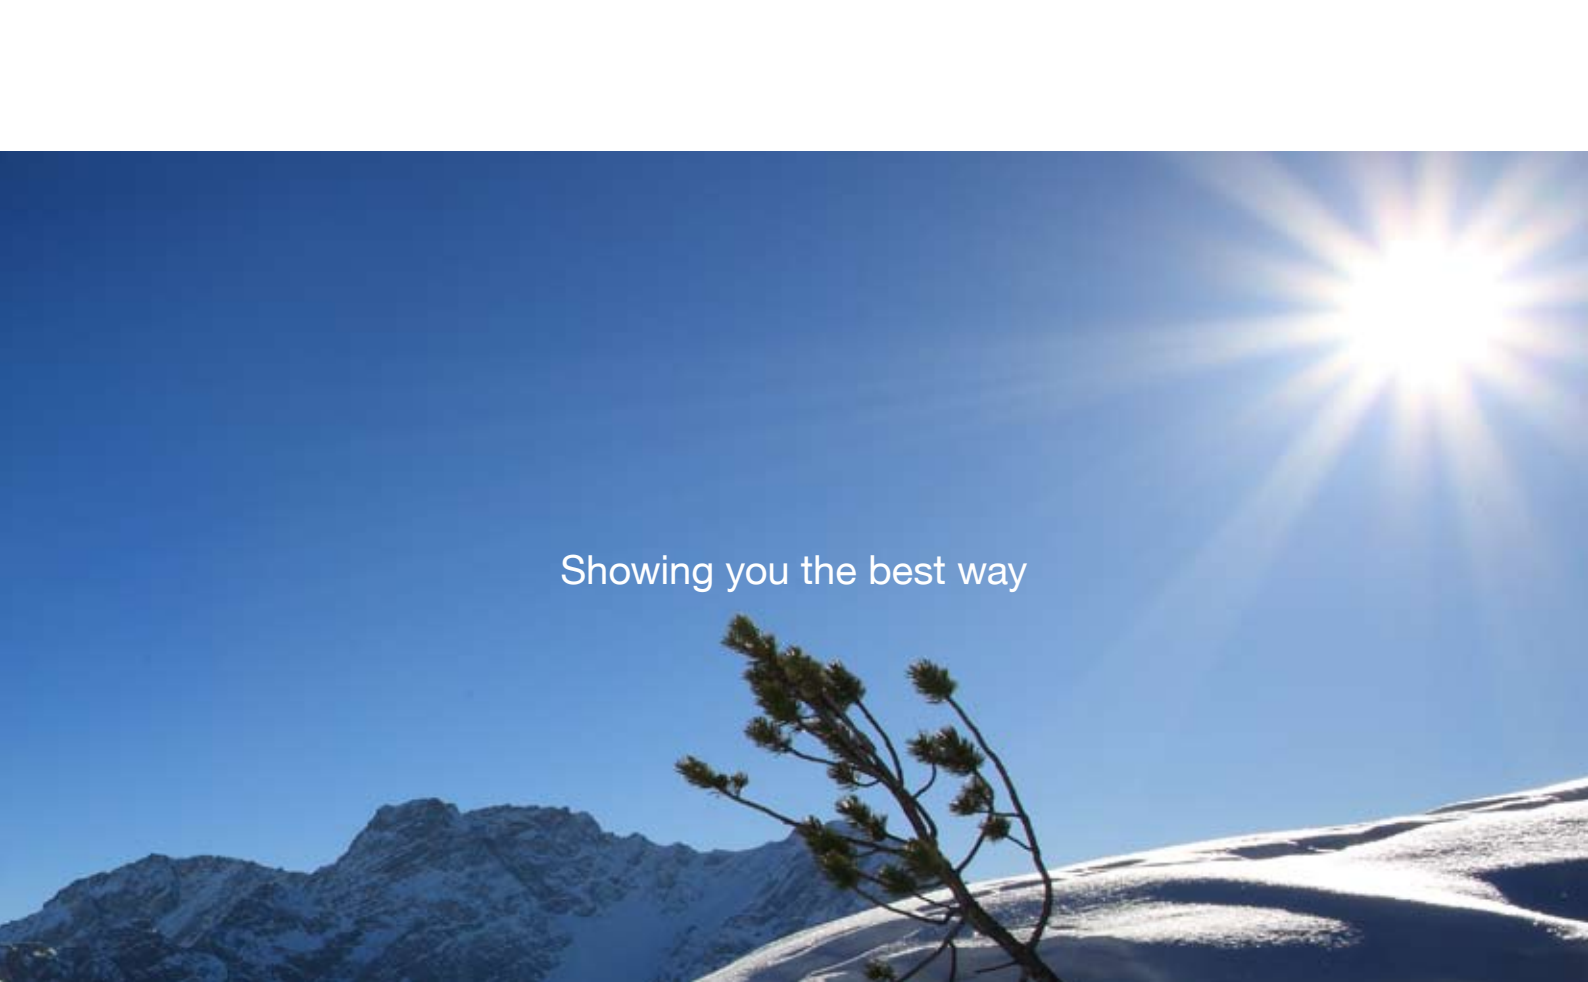

Be best equipped

As our client you are at the centre of our services. That's why we listen closely to you – at all times and not just during our introductory meetings. We tailor our advice to your individual wishes and targets. We avoid unnecessary risks and monitor all market trends. You can rely on the expertise of

an experienced international team and on a regular contact who will keep you up to date with the latest developments concerning your personal portfolio. This creates additional transparency when it comes to your investment strategy and enables you to monitor its success continually.

Showing you the best way

Who would you like to consult when it comes to difficult questions? We don't just see ourselves as neutral experts, but as good partners. In the true sense of the word "conservative" we are therefore not just asset administrators but asset preservers. This is the motto of our highly qualified and committed

team, experienced in private banking and asset management and led by senior business consultants and banking experts. Whether you are looking for careful analysis and individual advice, flexible implementation or thorough control, we will have the right consultant and partner for all questions of investment.

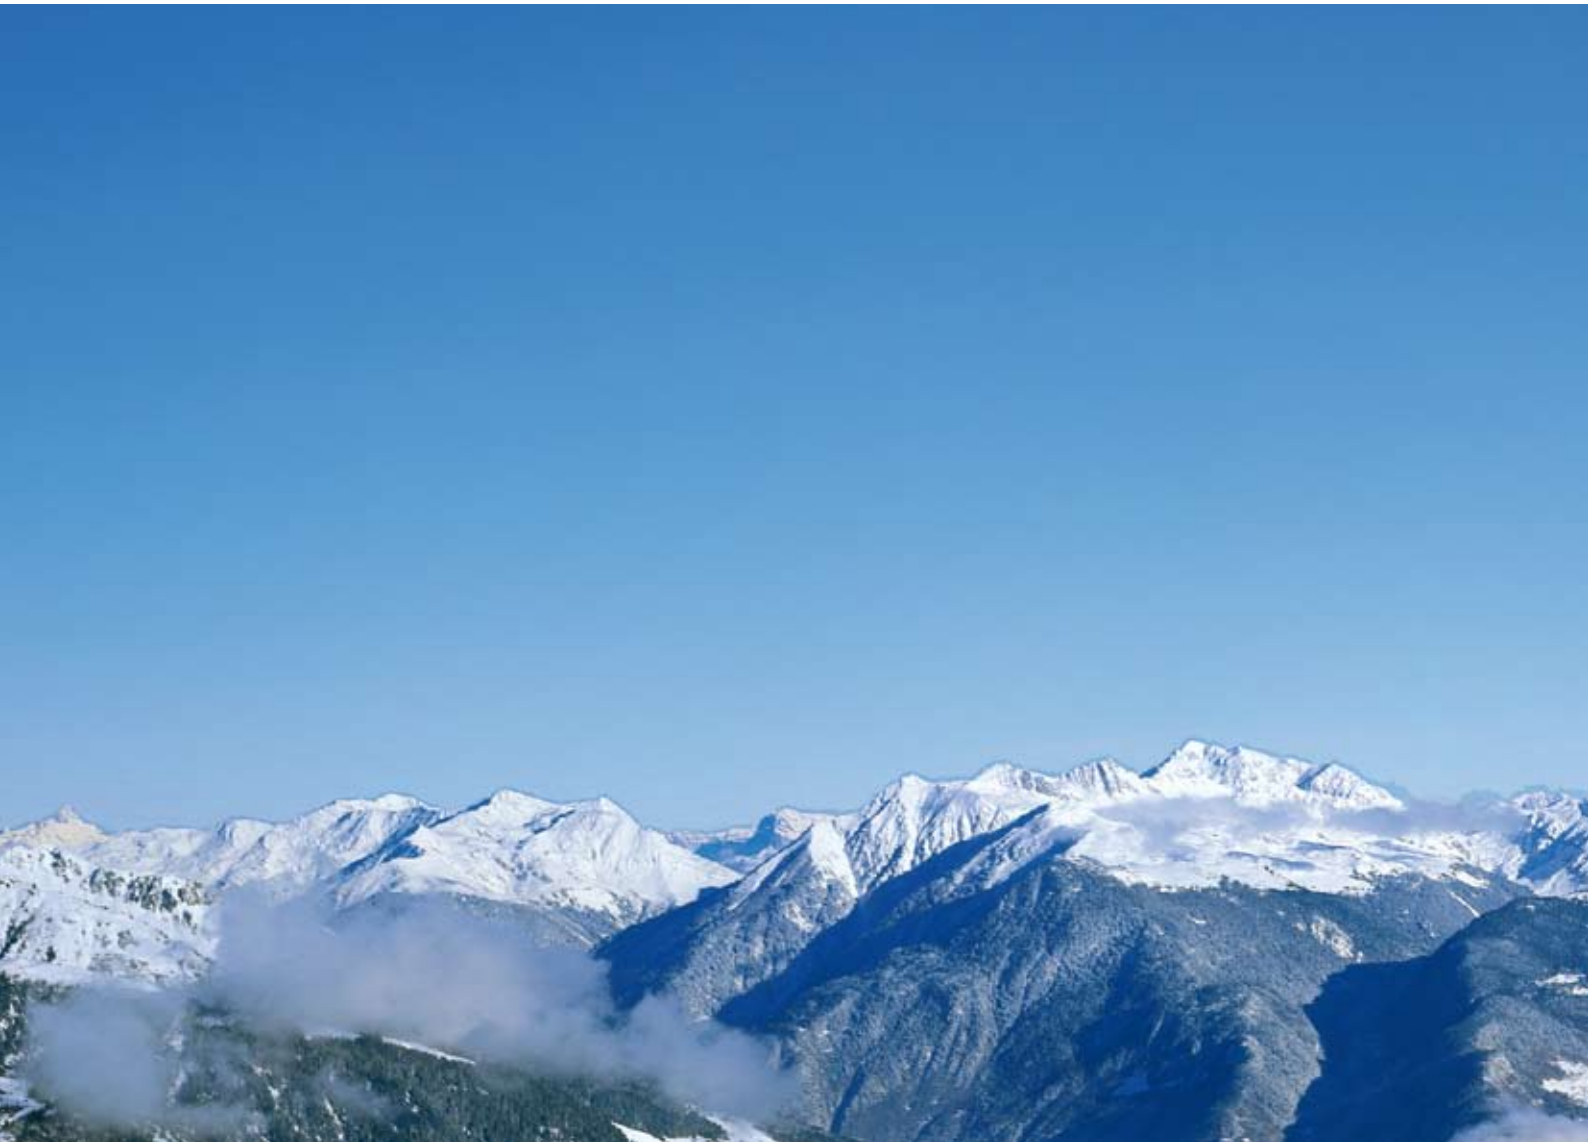

Be above it all

Sit back and relax. You will only be able to do this once you know that your financial affairs are well managed and in competent hands, with a reputable asset manager trusted by investors all over Europe. As a member of the organisation of

independent asset managers Maiestas Asset Management AG is committed to observing all legal and professional principles and guidelines. Continuous training keeps our services at the highest level. Performance you can trust.

It is our task to combine and realise your targets and wishes
